Water Under My Bridges

Hird

The sun sets behind you
And it shines on me too
This view must be the highest beauty
And I know that light will pass
And the dark will fall
But I don't care about that now
No I don't care about that nowThe days we spend
Searching, sometimes finding
If we die today, we should die smiling
And I know these times will be gone someday
But I don't care about that now
No I don't care about that nowWhat we believe, is what we believe
Faith, to give relief
And maybe all our truths will be lies someday
But I don't care about that nowI believe in love
Love believes in be
Though it tribulates
And my heart tests my sanity
And I know this love
Is gonna hurt some day
But I don't care about that nowThe sun sets behind youAnd I know that light will pass
And the dark will fall
But I don't care about that nowAnd I know these times will be gone someday
No I don't care about that nowAnd maybe all our truths will be lies someday
But I don't care about that nowAnd I know this love
Is gonna hurt some day
But I don't care about that nowOh ohh...I don't care about that now
I believe in love
