

How to Say Goodbye (feat. Jermaine Riley)

The Sonix

Verse 1 You should do this, you should do that
Listening to what you say, but when I go back
And reminisce on everything that I did with her
It makes sense why I don't like the idea of closure
Cos she used to touch me the way nobody else did it
Even when I leave and go to work she's the business
Single life is so s**t, wondering how can some promote it
When I had the best thing in the world

Chorus
How do I do this? You seem to know
You seem to be getting along fine
How does one go from the best love, to somethin' messed up
Tell me how to say goodbye
I just can't do it, do it, do it
I feel like I'm losin', losin', losin'
I just can't do it, do it, do it

Can you teach me, and, tell me how to say goodbye

Verse 2 Getting used to life without what
I became accustomed to the love that I got
Perhaps I should of known it wasn't gonna last long
Cos everything I thought I did right you said I did wrong
But I was willing to love you the way nobody else could do it
Even when I thought I gave the world you never knew it
Now I'm left with bruises wondering how can I get through this
When I had then best thing in the world

Chorus
How do I do this? You seem to know
You seem to be getting along fine
How does one go from the best love, to somethin' messed up
Tell me how to say goodbye
I just can't do it, do it, do it
I feel like I'm losin', losin', losin'
I just can't do it, do it, do it

Can you teach me, and, tell me how to say goodbye

Breakdown
Goodbye sweetlove
I could cry, tryna keep it together
Don't wanna say goodbye sweet love
I could cry, tryna keep it together
Don't wanna say goodbye sweet love
I could cry, tryna keep it together
Don't wanna say goodbye sweet love
I could cry (I could cry)

Chorus
How do I do this? You seem to know
You seem to be getting along fine
How does one go from the best love, to somethin' messed up

Tell me how to say goodbye
I just can't do it, do it, do it
I feel like I'm losin', losin', losin'
I just can't do it, do it, do it
Can you teach me, and, tell me how to say goodbye
