

She Got It In for Me

Dangerflow

Heard she got that fire right?
Type to make you leave your wife
Got you loco for her cocoa chocoholic late at night
Thinking that she love you right, wrong
Shes just trying to get on
Cuz shes feelin all alone and youve got a nice home
She wants to live the fast life
Aint trying to right the wrongs that she did in her past life, naw
Little red dress and a grin
Boy she loves to get it in
All she ever do is win
When it comes to pimpin' menChorusShes gonna do whatever she wants
To get whatever you got
Dont even need to know her name
She only wants the cream of the crop
Shell fight her way to the top
To reach the fortune and the fame
She loves to charm a man from the start
Stomp on his heart
Then she leaves the casualties along the way
I think shes got her eyes on me
Maybe I should be afraid
Shes Got it in for meShes got a look in her eye, so sly
Like a devil in disguise
Man I know she tellin lies
But they sound so sweet tonight
They said shes kinda dangerous
And thats ironic cuz I could be her Angel, Criss
I freak her mind, I aint gotta to make her mine
But I will take the time for this fancy little dime
Even though I know I should turn around and go
I cant leave this girl alone cuz shes so damn beautifulChorusEven though I know I should turn around and go
I cant leave this girl alone cuz shes so damn beautiful
