

Give Me That

Chyna Whyte

(Oh)

Girl give me that

(Oh oh oh)

Girl give me that

Girl give me that pussy

(Oh oh oh)

Girl give me that

Girl give me that pussy

(Oh oh oh)

Girl give me that there

Girl give me that pussy

(Oh oh oh)

Girl give me that

You know, you want it

Girl don't act like you don't want it

Girl, I want it just as bad as you do

And look see I can tell from this lil vibe

You got me feeling that you dig me

Boo, I'm digging you too

You wanna be one of the chosen few

Then gon' jig up in this motherfucker

Maybe me and you can do it big up in this motherfucker

Sit you in a crib where you can chill

Don't have to move a muscle

Give you some be good now you be good

Daddy gon' hustle

Come here let me whisper in your ear

I gotta tell you something

Listening to this song kinda make a nigga want something

Did some daydreaming

Now I'm fiending like I'm on something

Girl, don't hold it from me

'Cause right now I'll be don strong on ya

I ain't the type to ruin your life

By running game and throwing your dreams

Get in your brain suit your game

Ease your pain and show you things

Sit you on some leather seats

While blowing green

And switching lanes
Girl stop playing games, let me beat it out the frame
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
She five foot seven a hundred and thirty nine pounds
Thirty six twenty four thirty eight pretty fine brown
Bad lil broad I ain't seen her in a minute
Since the all-star game and I'm still tryin' to hit it
Got a baby for this nigga that I used to sell things
He caught a fed case and he ain't leave her no change
She sold all his jewels she sold all his cars
Now she dancing in the shaker club stripping for the stars
Sliding down the pole slow drop it to a split
Pussy popping on a handstand man she the shit
She still looking tight though
Still built right though
Run my game right and after the club
She might go back to the telly with me
Shake her jelly with me
Let my people bust on her face and her belly with me
I got Lil Webbie with me and he ain't hating
We some players in this bitch so baby stop hesitating
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Now, I can tell from your size that that pussy is fire

So I'm here and willing to give you whatever it require
For you to lay down on your back and then open your thighs
Long sharp deep and wide have you rolling your eyes
You a big fine horse I had no choice but to try it
Look like it's worth a couple G's but ain't some shit I buy
Let me whisper in your ear again I ain't gon' lie
I might share a lil meal just don't tell nobody
Look you know you want it
Girl don't act like you don't want it
Girl you want it just as bad as I do
But check this out
You gon' be wishing that you been gave me your number
By the time I finish rumberling with you
Wop, wop get loose, let's take this shit to the room
And you just keep yourself excited 'til we get to the room
'Cuz I've been rocked up since I met you
I'm ready to give you the blues
Don't stunt now take off your shoes
Don't act confused you know what time it is
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
Girl give me that pussy
Girl give me that
Girl give me, girl give me that there
