

# Grim Sleeper

## Butcher Babies

Death creeps through the door  
No one knows I'm here  
I'm nameless and faceless as fear  
13 Years it's been since  
I buried this sin  
Monkey on my back  
Don't look you can't see  
Through back alleys I creep  
Where no mothers will weep  
Hunting on the track  
Don't look now you can't see  
Who brought a knife to  
To the gun fight  
She screamed in bloody murder  
Her limbs all turning numb  
So numb  
It's closing in  
It's closing in  
I know death is lurking  
I feel it near  
Through the screams  
I can taste the fear  
Calling out no one  
Knows I'm here  
I'm nameless faceless victim  
Created Obsession  
Studied torture and pain  
Gathering what he'd need  
To stalk the innocent prey  
With his box of death he's  
stealing her last breath  
It's a heart attack  
He's out to taste blood again  
It's closing in  
It's closing in  
I know death is lurking  
I feel it near  
Through the screams  
I can taste the fear  
Calling out no one  
Knows I'm here  
I'm nameless faceless victim  
Death creeps through the door  
No one knows I'm here  
I'm nameless and faceless as fear  
This sweat this fear  
I know it's real  
Close my eyes so I can't see

The last night of my life  
I'm nameless  
I'm faceless as fear  
As fear I know death is lurking  
I feel it near  
Through the screams  
I can taste the fear  
Calling out no one  
Knows I'm here  
I'm nameless faceless victim
