

Chorus of Faith

Michael Card

(Chorus)

Sing it with your life; sing with your heart
Make melody with the words of your mouth
But mind that you listen, tell it to others
Hear the Chorus of Faith
Live the Chorus of Faith

The first note of the song split the darkness
And was sung by the planets and stars
And their light spoke halleluiah
And the words of the Chorus
Were sung by the angels before us
Now come join in the tune have loved him

(Chorus)

Sing it with your life; sing with your heart
Make melody with the words of your mouth
But mind that you listen, tell it to others
Hear the Chorus of Faith
Live the Chorus of Faith

And in time Jesus came to before us
And His coming made our life a song
And His word is the chorus
Is the Light that is burning
Is the Truth beyond learning
Is the reason we sing

(Chorus)

Sing it with your life; sing with your heart
Make melody with the words of your mouth
But mind that you listen, tell it to others
Hear the Chorus of Faith
Live the Chorus of Faith

Singing this songâ€™s what life is about
And if you refuse the stones will cry out
We do not sing that we might be more blest
He loves us with passion without regret

He cannot love more and will not love less

Sing it with your life, sing with your heart
Make melody with the words of your mouth
But mind that you listen, tell it to others
Hear and live the chorus of faith
