# Used Up

## Childsaint

Love letter from the past
Promised us so much more
Romantic gestures all run out
I know that everything's used up

Unrequited lures of coastlines
In another's dream
That have all run out
I know that everything's used up

Gifts receivers never wanted
Cluttered up a mistaken love
They have all run out
I know that everything's used up

Waiting for our cards to fall
Our abandoned hope is pitiful
It has all run out
I know that everyone's used up
