

# Guitar Song

## Texas

I feel bad and beautiful  
In all the strangest places  
You feel good, you're sweetest  
The weather's changing as I look at your face  
Falling, fall to the floor  
Falling, you know we can  
Haven't had a dream in such a long time now  
It's raining here and all the leaves are on the ground  
But I'm safe and warm, outside it's cold and gray  
That's my guitar and I will play for you all day  
So many songs in my mind  
Maybe less 'cause I've drunk so much wine  
There's light in your eyes  
But out the window it's gone dark outside  
Falling, fall to the floor  
Falling, you know we can  
Haven't had a dream in such a long time now  
It's raining here and all the leaves are on the ground  
But I'm safe and warm, outside it's cold and gray  
That's my guitar and I will play for you all day  
Haven't had a dream in such a long time now  
It's raining here and all the leaves are on the ground  
But I'm safe and warm, outside it's cold and gray  
That's my guitar and I will play for you all day  
It'll be alright  
If you stay tonight  
Haven't had a dream in such a long time now  
It's raining here and all the leaves are on the ground  
But I'm safe and warm, outside it's cold and gray  
That's my guitar and I will play for you all day  
Haven't had a dream in such a long time now  
(It'll be alright)  
It's raining here and all the leaves are on the ground  
(It'll be alright)  
But I'm safe and warm, outside it's cold and gray  
(It'll be alright)  
That's my guitar and I will play for you all day  
(It'll be alright)  
That's my guitar and I will play for you all day  
(It'll be alright)  
That's my guitar and I will play for you all day  
(It'll be alright)  
That's my guitar and I will play for you all day
