

# Leaves (with The Metropole Orchestra)

## The Gathering

I close your eyes with my mouth  
Now you don't see anything  
But you feel my breath all over  
I can feel you tooAlthough I don't really know you  
I don't really careCry with me make my day  
Tomorrow all will be gone  
All the sweetness and all the fun  
No, I don't wanna know...Although I don't really know you  
I don't really careNow that you're gone I don't know  
How to really feel inside  
Baring the hope to see you again  
I guess I never willNow that I do really know you  
Yes, I really care
