

Got To Get My Heart Back

[Keyshia Cole](#)

I know where I went wrong when I loved you more than I loved myself
I would have done anything for you I learned when I realized you didn't love me the way that I loved you and
now I know,
It hurts inside [Repeat: x2]
I gotta get my heart back to the way it used to love,
The way it used to be, and the way it used to feel Before I fell in love, fell in love, with you All I want is true love,
couldn't tolerate no more,
Loving someone who couldn't learn to love somebody else,
That's why my heart ain't been the same eh-eh I see right now, where it's heading down,
Same road I seen before but no one told me,
That it would hurt this way, that my life wouldn't be the same eh-eh That's why I gotta get my heart back I gotta
get my heart back to the way it used to love,
The way it used to be, and the way it used to feel Before I fell in love, fell in love, with you You ain't gotta lie,
you see me looking fly
You want me on your arm, well I ain't got the time
I seen it all baby, I been around the world
And it's a cold game, everywhere around the world
I see niggas crossed up cause they the realest
And all the realest niggas in the street don't got no feeling's
It come from being neglected, I'm so alone, and I'm on my own zone
Cause I'm trying to get my heart back [Repeat: x2]
I gotta get my heart back to the way it used to love,
The way it used to be, and the way it used to feel Before I fell in love, fell in love, with you
