

# Loosen My Strings

## Deep Purple

Wake up in the morning  
Get into bed  
closing my eyes  
I rest my head There is no arrangement  
No time no place  
It's gone in the wind  
and left no trace Who can say,  
maybe or whatever.  
It's up to you  
You know you can  
trust me  
I'll make it up to you You move with the action  
You loosen my strings  
Your fingers  
can smooth out my jangles  
and all those things Grease on the handle  
and the tangles  
in my hair  
They always seem  
to go together  
I don't care
