

# The Downward Spiral

## Nine Inch Nails

He couldn't believe how easy it was  
He put the gun into his face; bang!  
So much blood from such a tiny little hole  
Problems do have solutions, you know  
A lifetime of fucking things up  
Fixed in one determined flash  
Everything's blue  
Everything's blue in this world  
The deepest shade of mushroom blue  
All fuzzy, spilling out of my head
