## **Spirits**

## **Meja**

Light years of hurting and lifetimes of pain feelings that haunt you with sorrow You pushed the limits by breaking away we are deciples to follow You were the light of my life I left to wonder out that night when you decided to stop the fightAll I know Your spirit keeps living within me wherever I go Your spirit keeps moving within me Breaking every law that I know Your spirit keeps running within me Your spirit is......Higher dimensions and stars in-between it easy to hear, you calling Illusions of life tell me how could it be I feel so alive when I fallingI see you when I close my eyes walking thru space and time Climbing the stairs just to touch the skyStickYour spirit is:..... the wine that I drinking the tears that I cry(deep in the ocean) and all I believe in in these dreams of mineChorusyour spirit is..
