

# All my Life (RadioRockHits)

## Mustasch

All my life, I've had to cover up what others done  
And I'm so tired, it still happens to me all the time  
Let it be, they always say a better day will come  
How could I've been so blind All my life, I've been trying to find out who I really am  
And I ain't done, what's clear to you I'll never understand  
How I screamed, how I cried in the dead of night  
It was just a dream, one of those nightmares we don't talk about How did they dare not to let me speak?  
But this bird is soon about to fly free All my life I've had to cover up what others done  
But you're right, my day will COME! Now I'm mad, I wanna have those things I never had  
I can be bad, the consequences of your actions strikes back  
I'm not mean, you just haven't seen the real me  
Let it be, you will get used to it, you'll see All my life, I've been looking for a place called mine  
I have tried, still haven't found out who I really am  
How I lied when I told you I was satisfied  
And I lied when I said it's gonna be alright  
I couldn't find any piece of mind Now I'm done, I'm fed up being angry all the time  
But don't be calm, I'm on to everyone who clouds my skies  
Cause it's true, break bad patterns, that's the way to go  
All I know, my loved ones will not face my cruel doom All my life, I've been looking for a place called mine  
I have tried, still haven't found out who I really am  
How I lied when I told you I was satisfied  
And I lied when I said it's gonna be alright  
I couldn't find any piece of mind I can talk about it now  
I'm not afraid to fly  
Many years has passed me by  
Everything will be alright I can talk about it now  
I'm not afraid to fly  
Everything will be alright  
But I'm not satisfied
