Better Now

The Vespers

If I had one call to make
I would dial yesterday
And warn myself
Tell my lips the words to say
And not let you just walk away
With someone else, with someone else
Next time I won't suffer this kind of pain
All my mistakes and I just pass off all the blame
If you were here, we could figure this out
Then I wouldn?t be bitter, I?d just be better now
To be the strong and silent one
A lot of good that has done
Yes, you'd agree
No more tryin' to understand
Or fix these things because you can

Guess it?s up to me, yeah, it?s up to me
Next time I won?t suffer this kind of pain
All my mistakes and I just pass off all the blame
If you were here, we could figure this out
Then I wouldn?t be bitter, I?d just be better now
I'd be much better off
Much better off
Maybe if I could just let it go
With no regrets left
Next time I won?t suffer this kind of pain
All my mistakes and I just pass off all the blame
You?d still be here and we'd figure this out
Then I wouldn?t be bitter, ohh no, I wouldn?t be bitter
I'd just be better now
