Riverbed

Davy Knowles & Back Door Slam

Meet me on the other side
It's a brand new start to a brand new life, I'm open
'Cause we both share the same degree
Of ecology and philosophy, I'm open

The lonely world without a friend
Can lead the way into depend on
I need someone to wake me up
From the lazy sleep that locks me down, I need you

You lead me down to the waters edge
Let's take a rest on the riverbed

Take your time, I'm almost there
I brushed my teeth and combed my hear, one minute
Thereâ€™s no rush where we will go
The past has gone, the pace is slow, infinite

I don't need to realize
All the dreams that I devised before now
So put a blindfold on my eyes
I need to feel your sweet surprise, you know how

You lead me down to the waters edge
Let's take a rest on the riverbed

You lead me down to the waters edge
All that I need is your go ahead
