Left Behind

CSS

Baby, you've got me thinking
'Bout the things I left behind
A suitcase in Helsinki
Full of things I wanna set on fireFor I realize that youve been lying
And no matter how hard I try
I won't be able to forget this
'Coz this is very deep insideMeaning what I left behind
What I left behind
Left behind
What I left behindSo I'ma fly back to Helsinki
And even stay there for a while
Gonna get my things back
Gonna get some fun and drink till I pass outI'm gonna get on to the table
And dance my ass off till I die
And then Ill hopefully forget you
And quit those nightmares I've been havingEvery night, every day
It's the same so hard to explain
A million pounds won't be enough
To make me stare back at your faceThat's what I left behind
Left behind
What I left behind
Left behind, yeah, yeahLeft behind
What I left behind
Left behindEvery night, every day
It's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your faceBaby, you've got me thinking
Baby, you've got me thinkingBaby, you've got me thinking
About the things I left behind
A suitcase in Helsinki
Full of things I wanna set on fireI'm gonna jump onto the table
And dance my ass off till I die
And then Ill hopefully forget you
And quit those nightmares I've been havingEvery night, every day
It's the same, so hard to explain
A million pounds won't be enough
To make me stare back at your faceEvery night, every day
It's the same, so hard to explain
A million pounds won't be enough

To make me stare back at your face
That's what I left behind
