How Much For Your Wings?

The Black Crowes

How much for your wings?
How much for your wings?
Well it comes and it goes
How much for your wings?
And it's high and low
How much for your wings?
I can name a price
How much for your wings?
Many forget their pride

[Chorus:]

If I were you and and you were me we'd know

And could it be what you perceive is wrong?

And what I mean what wrong could be I don't know

I'm not naive but I believe

So I may grow

How much for your wings? The soul you kiss good-bye How much for your wings? Watch the stars collide

How does it feel When you're the only one?
