

# One Step

## Dead Letter Circus

I hate when you come around  
I hate what I've become now  
I hate that we compromised  
    Just to grow closer  
    Say that you're gonna go  
See I can't take it anymore  
    I just can't find a way  
    I won't lie  
One step away from here  
    and just a moment to go  
Is it ok if I close my eyes  
    As we go further

I want escape from the compromise  
    As we come closer  
    Say that you're gonna go  
See I can't take it anymore  
    This is my escape  
    One more lie  
One step away from here  
    and just a moment to go  
    It's just a moment  
    One step away...  
    Just can't find a way
