

One Step

Dead Letter Circus

I hate when you come around
I hate what I've become now
I hate that we compromised
 Just to grow closer
 Say that you're gonna go
See I can't take it anymore
 I just can't find a way
 I won't lie
One step away from here
 and just a moment to go
Is it ok if I close my eyes
 As we go further

I want escape from the compromise
 As we come closer
 Say that you're gonna go
See I can't take it anymore
 This is my escape
 One more lie
One step away from here
 and just a moment to go
 It's just a moment
 One step away...
 Just can't find a way
