

# Ooh La La

## Goldfrapp

Dial up my number now  
Weaving it through the wire Switch me on  
Turn me up  
Don't want it Baudelaire  
Just glitter lust Switch me on  
Turn me up  
I want to touch you  
You're just made for love I need la la la la la  
I need ooh la la la la  
I need la la la la la  
I need ooh la la la la Coils up and round me  
Teasing your poetry Switch me on  
Turn me up  
Oh child of Venus  
You're just made for love I need la la la la la  
I need ooh la la la la  
I need la la la la la  
I need ooh la la la la I need la la la la la  
I need ooh la la la la  
I need la la la la la  
I need ooh la la la la You know I walk for days  
I wanna waste some time  
You wanna be so mean  
You know I love to watch I wanna love some more  
It'll never be the same  
A broken heel like a heart  
I'll never walk again Yeah I need la la la la la  
I need ooh la la la la  
I need la la la la la  
I need ooh la la la la I need la la la la la  
I need ooh la la la la  
I need la la la la la  
I need ooh la la la la
