Strawberry Snow

Brenda Lee

Sleep with your spoon in your pillow
Don't be the witch that bends the Willow
No matter how old you grow
Morning may bring, Strawberry Snow
Little boys and girls make raindrops turn to Lemon
Then, little boys and girls turn into men and women
Those that are happy are those that still know
That morning may bring, Strawberry Snow

Smile though your heart has no reason
Drink everyday that's the season
Ask little children, they know
Morning may bring, Stawberry Snow
(Music)
Ask little children, they know
Morning may bring, Strawberry Snow
