Declaration of Hate

Dark Funeral

Christians - oh how I hate them all
I see them as weaklings, who care about all
Misery - where ever it dwells
There they are with their smiles...
Trying to help...Hurt them - and they turn the other cheek
If you confront me
You will repent!I don't even bother
About other's problem
Don't care about humanity
I only care about me...Over and over they speak of their lies
Over the weak ones, they gather like flies
What's wrong with people, why don't they see?
What they are preaching is hypocrisyYou mother fuckers..."Speak to me about your lies
And I will rip out your fucking tongue""If you face me with your idiot smile
I will wet my fucking steel"I don't even bother
About the other's problem
I don't care about humanity
Oh god I hate you!!!Over and over they speak of their lies
Over the weak ones, they gather like flies
What's wrong with people, why don't they see?
What they are preaching is hypocrisy...Hypocrisy!!!Over and over they speak of their lies
Over the weak ones, they gather like flies
What's wrong with people, why don't they see?
What they are preaching is hypocrisy...
