

Hello, Dolly!

Frank Sinatra

Hello dolly, well hello dolly
Its so nice to have you back where you belong
Youre looking swell, dolly, we can tell, dolly
Youre still glowing, youre still crowing, youre still going strong
We feel the room swaying cause the bands playing
One of your old favorite songs from way back when
Take her wrap, fellows, find her an empty lap, fellows
Dollyll never go away, Dollyll never go away
Hello Satch, this is Francis, Louie
Its so nice to see you back where you belong
Youre back on top, Louie, never stop, Louie
Youre still singing, youre still swinging, youre still going strong
You get the room swaying when you start in playing
One of your great songs, or songs from way back when
Blow your horn, Louie, sing up a great big song, Louie
Promise you wont go away, promise you wont go away
Promise you wont go away again, ooh yeah
