New Years Resolution

Graham Colton

New Years Resolution

I?ve got a new years resolution
I think I know what I?ve gotta do
I?ve got a new years resolution getttin over you
I?ve got some old friends I think I?m losing
I?ve got some new ones that I?m not talking to
But all of my new years resolutions are getting old to you

So here?s to the love
The love that we had
Here?s to the time
The good and the bad
Here?s to the ones you never forget
Here?s to the year that we had

I gotta find a new solution
For all of the ghosts that keep haunting me
I gotta get some absolution
For all I failed to be

So here?s to the love
The love that we had
Here?s to the time
The good and the bad
Here?s to the ones you never forget
Here?s to the year that we had

The break ups
The makeups
The birth and the death
The peaceful solution that war never helps
The mistakes you make the heart you break
A memory that never goes away

I?ve got a new years resolution
I think I know what I?ve gotta do

So here?s to the love
The love that we had

Here?s to the time
The good and the bad
Here?s to the freinds you never forget
So here?s to the love
The love that we shared
And when it all ends we?re never prepared
Here?s to the friends you never forget
Here?s to the year that we had
Here?s to the year that we had
Here?s to the year that we had
