We Can Do It

Steel Pulse

It's time to put away our
Guns and ammunition
We can do it if we try
I tell you what the reason
Causing all the friction
Discrimination is a crimeWe can do it
If we try
Let war and hatred
Pass us byCHORUS
We can do it if we try
Let war and hate just pass us by
We can do it if we try
Right now! Ah ha haMy generation
God help the children
My generation
God help the childrenIf parents only had more
Time for understanding
The youth won't have to turn to drugs
There's only one solution
Causing all the problem
We talking universal loveWe can do it
If we try
Let war and hatred
Pass us byCHORUS
We can do it if we try
Let war and hate just pass us by
We can do it if we try
Right now! Ah ha haMy generation
God help the children
