

# Money On The Brain

Lloyd

Switchin' up lanes doin' my thang livin' my life the way I wanted pickin' up speed headed to the bank money  
on the brain on me and my homies

I got money on the brain, I got money on the brain [x3]

You send me in circles you give me the chills you know how to blow my mind you know just how to make me  
feel

Let's escape for awhile on this magic carpet ride we can fly high, high, high we can go for a ride up and away  
want to fly, fly, fly, fly, fly

Switchin' up lanes doin' my thang livin' my life the way I wanted pickin' up speed headed to the bank money  
on the brain on me and my homies

I got money on the brain, I got money on the brain [x3]

You send me in circles you give me the chills you know how to blow my mind you know just how to make me  
feel

Let's escape for awhile on this magic carpet ride we can fly high, high, high we can go for a ride up and away  
want to fly, fly, fly, fly, fly

Switchin' up lanes doin' my thang livin' my life the way I wanted pickin' up speed headed to the bank money  
on the brain on me and my homies

I got money on the brain, I got money on the brain [x3]
