Over Exposed Photo

So They Say

I take the blame, it's not the same
What a shame, future lessons for past insinuations
It makes sense to me, makes sense to me
I left the keys under the seatIf you're feeling desire
It's the need to, hit the lights and
Fuck the lier when you're chewing on your words
You won't need to believe meI know that this would never stay between us
And that's alright 'cause I don't have anything to hide
And my only desire is to uncover
The truth about meSo, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me now
So, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me nowIt won't stop me nowI'll shake this cage, we call the stage
It's too late to be playing games
All I'm saying is if you don't see change
It's 'cause you haven't seen what I have seen
(Get so excited)This would never stay between us
And that's alright 'cause I don't have anything to hide
And my only desire is to uncover
The truth about meSo, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me now
So, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me nowSo, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me now
So, while I'm driving here with anyone tonight
But it's still like photos
Overexposed with a footnote hanging on the wall won't stop me now
