I Love This Life

Kim Cesarion

She had a triple six tattoo,
kinda scared me for a minute
She said "I really really like you"
before i knew it i was in itShe had a white smile, black hair
took my hand and let me up the darkest stairs
When i open up my eyes she is on top of me
coming at for a biteThen she stopped and said
I love this life
But it only lasts a minute
Do you love this life?
Cuz if you do,
I promise i can make it last forever
forever
forever
forever
Woke up, it was daylight
when no one's hoping she was missing
Something came up with me last night
i think i'm falling for a vision
And now i know i gotta have her
even if it means i gotta live forever
So i find her in the dark
open up my heart, begging to be mineShe pulled me in and said
I love this life
But it only lasts a minute
And do you love this life?
Cuz if you do, i promise i can make it last forever
forever
forever
forever
I promise i can make it last forever
forever
forever
forever
If you stay right here and live for the night
we can light up the darkness together
If you stay right here and live for the night
if you fall in my arms and surrenderI promise i can make it last forever!
hey!I promise i can make it last forever

forever.
forever!
