Going Down To Die

Danzig

And I know that it's true
All the fire has burned through
Well you know I've played so hard
And the light grows so dim
And my time's getting slim
All the words just don't mean muchAnd I know I'm saying goodbye
And I know that I'm going down to dieIn my heart there's a wind
And it swirls up a dim
It's so loud, it drowns my mind
Till the coin that I pass
To the ferryman's grasp
Let's me leave my pain behindAnd I know I'm saying goodbye
And I know that I'm going down to die
And I know I'm saying goodbye
And I know that I'm going down to dieSo I part and I'm oh so cold
And I hope to release my heart
Better leave while my song still calls
It's the truth that I'm going down to dieAnd I know I'm saying goodbye
And I know that I'm going down to die
And I know I'm saying goodbye
And I know that I'm going down to dieAnd I know I'm saying goodbye
And I know that I'm going down to die
And I know I'm saying goodbye
And I know that I'm going down to die
