## I Believe In Love

## **Matisyahu**

And I remember when I was running after you
Can't keep up and you know its true
I know sometimes I've been down so blue
But its not about that, cause you know what to do
Not about the he said, she said, you said, I said
Not about the show, not about the flow or the song I write
Early morning and the late late night

I'm on my way to you
I'm on my way to you
I believe in love, sittin' so high in a tree
I believe in love, you're my reason to be
Believe in love, yeah
Now I'm free

Its not about the plane, or the train or the automobiles

This is about the way that you make me feel

In this world of lies, this is something real

Said something but its time we heal

Its not about the fast life in my past life

I asked you to be my wife

I know sometimes this love it cuts like a knife But I want to end this strife

I'm on my way to you
I'm on my way to you

I believe in love, sittin' so high in a tree I believe in love, you're my reason to be

Believe in love, yeah

Now I'm free

I believe in love, sittin' so high in a tree I believe in love, you're my reason to be Believe in love, yeah

Now I'm free

I believe in love, sittin' so high in a tree
I believe in love, you're my reason to be
Believe in love, yeah
Now I'm free
