Lies

Emf

You said too much And what you said, it was a lie You said too much And what you said it was a crimeI've bled too much With every lie you keep on telling I've bled too much This time, each timeThe harder we fall The closer we are Well I don't feel blue When I'm with youYou said too much And what you said, it was a lie, lie, lie And what you said, it was a lie, lie, lie And what you said, it was Each time we fall You say too much This time, each timeThe harder we fall The closer we are Well I don't feel blue When I'm with youYou said too much And what you said, it was a lie, lie, lie And what you said, it was a lie, lie, lie And what you said, it was The harder we fall The closer we are Well I don't feel blue When I'm with youYou said too much And what you said, it was a lie, lie, lie And what you said, it was a lie, lie, lie And what you said, it was This time I don't feel so blue When I'm with you, when I'm with you This time I don't feel so blue

Lyrics provided by https://damnlyrics.com/

When I'm with you, when I'm with youAnd what you said, it was
