

# Want To Be Real

[Chris August](#)

I've never said this before, I've never opened that door so wide  
No one else is around there's no good reason for me to hide  
And I, I want to be real[Chorus:]  
So I'm throwing out words I don't fully understand  
I could be talking to myself, but I don't think I am  
'Cause You're always there, through the fight  
Saving my heart from the doubt inside I'm not the man that I was, I used to see You in highs and lows  
But now I'll keep on believing, even if I can't see You  
And I, I wanna be real[Chorus]
