Smoke

Gorgon City

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my sideCome lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my sideCome lift the smoke from my eyes

Come lift the s...

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time

When you've been right by my side

Come lift the smoke from my eyes

Let's see the sun in the sky

Cause I've been wasting the time When you've been right by my sideCome lift the s...

Come lift the s...
