

One of the Brightest Stars

James Blunt

One day your story will be told,
One of the lucky ones, who's made his name

One day they'll make you glorious,
Beneath the lights of your deserved fame.
And it all comes round once in life a lifetime like it always does
Everybody loves you cause you've taken a chance out on a dance to the moon, too soon

And as they'll say told you so, we were the ones who saw you first of all
We always knew that you were one of the brightest stars

One day they'll tell you that you've changed
Though they're the ones who seem who to stop and stare
One day you'll hope to make the grave, before the papers throws to send you there.

And it all comes round once in a lifetime like it always does,
Nobody loves you cause you've taken the chance out on a dance to the moon, too soon

And they'll told you so, we were the ones who saw you first of all,
we always knew that you were one of the brightest stars

And they'll say told you so, we were the ones who saw you first of all,
we always knew that you were one of the brightest stars
