Making My Life

Good Old War

How did we all of a sudden manage to fall apart?
I wouldn't wish my troubles on you or anyone else.
I've tried my best to be honest, to keep this thing moving along
And every time that I haven't you help me to see things as they areOooohEverybody's got something don't they?OooohKeeping them together (don't they, don't they)For me, it's you, it's you, and we both know that it's true
I'd look deep in my heart and back my childhood
You're making my life so easyIs there still time to change your mind?
What's gonna change your mind?OooohEverybody's got somethingOooohKeeping them together don't they (don't they)For me, it's you, it's you, and we both know that it's true
I'd look deep in my heart and back to my childhood
One way or another, we'd live for each other
You're making my life so easyOoooh
