

Desire

Little Boots

So many things I want, so many things I need
So many things that haunt me, haunt me when I can not sleep
Addicted to desire, I can not beat the high
I'm hanging on a feeling, I'm caught up in a fire I feel it, I feel it, I feel it, I feel it
Desire

I need it, I need it, I need it, I need it
Desire You know that all I ever wanted, all I ever needed
Was something that was built to last
Desire, you got me on my knees, you got me begging please
Show me, just show me something real
Show me, just show me something real
So now I am a prisoner, kept in a golden cage
If anyone is listening, I will not be your slave
I couldn't help myself, and I will take the blame
Caught under a spell, I know, it's all about to change I'm dreaming, I'm dreaming, I'm dreaming, I'm dreaming
Desire

Believing, believing, believing, believing
Desire
You know that all I ever wanted, all I ever needed
Was something that was built to last
Desire, you got me on my knees, you got me begging please
Show me, just show me something real
Show me, just show me something real
