

I'm Really Glad You Hurt Me

Webb Pierce

The quarrel dear it started with a simple word or two
And you'll never know just how I hurt the night you said 'we're through'

I know it may sound funny for now I've changed my view
I'm really glad you hurt me for I've found someone that's true
To think of all the sleepless nights and sorrow I've been thru

To think of all the many times that I have been a fool
It gives me consolation to know I won't be blue
I'm really glad you hurt me for I've found someone that's true

To think of all the sleepless nights and sorrow I've been thru

To think of all the many times that I have been a fool

It gives me consolation to know I won't be blue
I'm really glad you hurt me for I've found someone that's true
