Lifeless

12 Stones

Desperate and waiting, frozen to the core
Numb to this feeling, needing something more
All I keep thinking is where I need to be
All I can hope for is someone to take me away
Before you go, you promise me something
I need to know, will you leave me lifeless?
Leaving me lifeless
Will I bow down to this life that I live?
Will I find freedom or lose it all again?
All I keep thinking is where I need to be
All I can hope for is someone to take me away
Before you go, you promise me something
I need to know, will you leave me lifeless?
Time moves so slow, I'm waiting for something
Waiting for something again
Will I fall away from you?
Feelings that I never knew
And I hope that I never fall away
Will I fall away from you?
Feelings that I never knew
And I hope that I never fall away
Before you go, you promise me something
I need to know, will you leave me lifeless?
Time moves so slow, I'm waiting for something
Waiting for something
Leave me lifeless
Leave me lifeless
Leave me lifeless
