The Victory Song

Man Alive

This wait it over and done
It's finally over
This race is finished and won
It's finally over
The victory song is sung
It's finally over
It's been as long as I recall
It feels like I've been waiting, waiting
Far as I can remember
Seems like we've spent forever waiting, just waiting for now
(2x)Maybe I can convince myself
This is the final one
Or find the strength to brace myself
It's only just begun
Need time to sit back, pray and think
Need time to readjust
Go on and take me where you wantAnd I've been waiting, waiting
Far as I can remember
Seems like we've spent forever waiting, just waiting for now
It's been as long as I recall
