Turn it up Listen up
Listen now
EVerybody gather 'round
To the sound you know it's gonna make you bounce
Just enough to get you jumpin' in the mood
Just enough to keep you dancin' up and in the groove I like the way you're working
Boy you look so good now
Can you feel it all over yeah So honey if you can't resist
If you're down
Hear me out
Come on show me what you're workin' with *Stand up hands up
Let me see your hands up
Put your hands up
Come on dj turn it up let me see you move
Let me see you move
