## Speedy Ortiz

[Chorus]

You gotta put one in for another to come  
Sacrifice your first then you won't have to slave a lot  
I have been rejected for semesters at sea  
Pasting up the walls, should've gone for a tapestry[Verse 1]  
I am not averse to getting salt in my face  
Let me marinate a week and reevaluate  
The only true essential is your pout in the shot  
Don't complicate the thought[Chorus]  
Put one in and another will come  
Throwing out the trail just to get to the trailer park  
I have been rejected, though I want it a lot  
Spying from the knoll, should've shot from the balustrade[Verse 2]  
Tell me all the truths buttoned into your shank  
Are we so similar or was that just a gag?  
The only true essential is repetitive speech, then pose accordingly[Bridge]  
Is it getting old sealing all your kisses with poison?[Chorus]  
You gotta put one in for another to come  
Sacrifice your first, then you won't have to wait so long  
I have been rejected for most everything  
Take me off your list or elect a lobotomy  
Take me off your list
