Head Above Water

Daryl Hall & John Oates

Oceans, emotions, yeah we all feel the same
Afraid of undertow and great tidal wave
I may go under many hundreds of times
I keep on kickin', baby throw me a lineC.C. Sick, Mai de Mer
Try, try, try I'm holding on, holding myHead above water
It's so hard to keep my head above water
Head above water
It's so hard to keep my head above waterNo never envy the big fish in the pond
It's deep and dark when all the surface is gone
My kind of humor kind of keeping me dry
On the horizon, water touches the skyC. C. Sick, Mal de Mer
Try, try, try, try, try, try, I'm holding myHead above water
It's so hard to keep my head above water
Head above water
It's so hard to keep my head above waterHead above water
It's so hard to keep my head above water
Head above water
It's so hard to keep my head above water
Oh yeahI better keep myHead above water
It's so hard to keep my head above water
Head above water
It's so hard to keep my head above waterHead above water
It's so hard to keep my head above water
Head above water
It's so hard to keep my head above waterHead above water
Head above water
Head above water
