Years to Come

Nural

Smoke fills the sky in the blink of an eye,
Staring from the streets below
I witness thousands die
In this moment, I see this world for what it isYou, you don't know pain, allow me to introduce you
In fact I'll fuel this fire, watch it burn
I'd like to see your God try and save you now
Save us nowThe smoke will clear or so it appears
It carries into further years, every year to come
This is no memory, no this means war
I'm sure it's all you want and moreYou, you don't know pain, allow me to introduce you
In fact I'll fuel this fire, watch it burn
I'd like to see your God try and save you now
Save us nowI've been here for a while still I see
You people are a cancer, we're the cure
So consider yourselves curedYou, you don't know pain, allow me to introduce you
In fact I'll fuel this fire, watch it burn
I'd like to see your God try and save you now
Save us now
Oh
