

# Trouble (US Club Mix)

## Heaven 17

I'm in a place where nothing ever happens  
I'll try one day to walk away  
But for now I'll hang around  
I am a fool without exception I break every rule  
But I never break away  
(Trouble) It's walking my way  
I feel it moving closer day after day  
(Trouble) I'm talking to you It's getting hot in here but what can I do  
Sometime, someplace I'll make it happen  
Yours is the face, to help me set this time ablaze  
I've always thought there's no protection You'll walk through the door  
And I'll never want for more  
(Trouble) Again and again  
It's not so simple and I never know when  
(Trouble) For me and for you  
The trouble's double now we're fighting for two We'll take this place we'll make it happen  
We'll leave them behind  
We'll leave them all to change their minds  
The trouble is with the solution  
One's not so strong, but with two of us we can't go wrong (Trouble) I'm talking to you  
It's getting hot in here but what can I do  
(Trouble) - Again and again  
It's not so simple and I never know when  
(Trouble) - I'm talking to you  
It's getting hot in here but what can I do
