Shut Us Down

Lindsey Buckingham

Oh you and I we sure can dream Of conversations that might have been I know that I treat you unkind And long ago I lost my mind And even after all these years I can't even see you clear I know that you must lie sometimes To hide the truth you're trying to find Oh I won't shut us down No I will stay around As long as I can As long as I can Even after all these years I can't even see you clear A child is born another dies And every life has its price Oh I won't shut us down No I will stay around As long as I can As long as I can
