(This Is) My Jesus

Peel

You've got your fingerprints from me
But you've got no glasses you can't see
Nothing here was meant for you
I do mine, do what you do
I 'am - you are
Be here - be now
This is my faith, this is my Jesus
This is my heart, this is my gold
You turn it up but make no sound
You've seen it all you were kicked around
Nothing here was made by you
So when it falls what will you do, oh, what will you do?
I am - you are
Be here - be now
This is my faith, this is my Jesus
This is my hand, this is my gold
