

# Steady On

## Point Of Grace

Kicking up dust to Heaven or bust  
We're headed for the Promised Land  
Since the moment we believed  
We've been eager to leaveLike a child tugging daddy's hand  
May we never forget that patience is a virtue  
Calm our anxious feet  
So faithful hands can serve You LordWe run on up ahead, we lag behind You  
It's hard to wait when Heaven's on our minds  
Teach our restless feet to walk beside You  
'Cause in our hearts we're already gone  
Will you walk with us steady on?We want to walk awhile  
We know that every mile is bringing us closer home  
We want to tell the story  
Of sinners bound for glory and turn to find we're not aloneWhen we walk in your light  
The lost will see you better  
As the narrow road gets crowded  
Lord, won't you lead us steady on?We run on up ahead, we lag behind You  
It's hard to wait when Heaven's on our minds  
Teach our restless feet to walk beside You  
'Cause in our hearts we're already goneSteady me when the road of faith gets rocky  
Oh, ready me, for fears I cannot see  
Lord, won't you let me be a witness to your promise?  
Won't you steady me?We run on up ahead, we lag behind You  
It's hard to wait when Heaven's on our minds  
Teach our restless feet to walk beside You  
'Cause in our hearts we're already goneWe run on up ahead, we lag behind You  
It's hard to wait when Heaven's on our minds  
Teach our restless feet to walk beside You  
'Cause in our hearts we're already gone  
Will you walk with us steady on?Steady on  
Steady on  
Steady on  
...
