Immortal Sin

Fight

Torn by the wrath that burns like a buried flame
Crossed in the heart from this voice that's a nagging pain
Snared to the book of God with a twisted fear
Help me from being damned by a righteous spearIt's immortal sin
It's immortal sin
It's immortal sinChained with a crooked stare that conceals a lie
Choked on a love that's judged from an evil eye
Lost in a world of hurt through a sense of doubt
Take all the numbing grief, let the poison outIt's immortal sin
It's immortal sin
It's immortal sin
It's immortal sinIt's immortal sin
It's immortal sin
It's immortal sinTorn by the wrath that burns like a buried flameIt's immortal sin
It's immortal sin
It's immortal sinIt's immortal sin
It's immortal sin
It's immortal sin
