

# Close to You

## Neon Trees

Lonely eyes been watching me  
I can see what you want me to see  
I wanna be close to you.  
All we need now is the dark  
Dancing shadows move on to white walls  
I wanna be close to you  
Heavy eyes been watching me  
Rhythms, beats and melody  
They make me get close to you.  
Other guys will sell you tricks  
Tell you lies to get their fix  
Don't let them get close to you.  
Give me fire  
Give me fire  
It'll burn all your fear away  
Give me fire  
Give me fire  
It'll burn all your fear away  
I still got my eyes on you baby.
